Together for a Safe Winter Season – The Safety Policy: Our Shared Compass

Safety – Punctuality – Service

The order of these words is no coincidence. Safety always comes first, regardless of time pressure, weather conditions, or external demands.

Punctuality and service are important goals, but they must never be achieved at the expense of safety.

Management is responsible for creating the right conditions, but safety is built in our daily work – by each of us, in every decision and every action.

Our Shared Responsibility

"Safety is not the absence of accidents, but the presence of defenses."

Safety at the airport is not a matter of luck, but of awareness, dialogue, and accountability.

By following procedures, staying alert, asking questions, and sharing experiences, we build the defenses – the barriers – that allow us to work safely, even on the most demanding winter days.
