

Safety Alert

Stockholm Arlanda Airport 2024-04-19
Safety Alert 61

Safety Awareness during turnaround

- To halt dangerous aircraft movements - press **Emergency Stop!**
- During aircraft movements at stand everyone needs to sharpen their attention.
- To stop movements that risk personal injury or other damage - activate the **Emergency Stop** immediately.

The Emergency Stop button will show STOP in the A-VDGS Docking system display and will freeze movement of PBB Passenger Boarding Bridges. Reset of the stop button and acknowledging the alarm will allow restart of movements.
