

Safety Alert

Stockholm Arlanda Airport
Safety Alert 65

See and be seen!

Switch on Low Intensity Airport Vehicle Warning Beacons when driving in the movement area.

Warning light may be switched off if you are involved in turnaround and only within the aircraft parking stand.

Definition of the movement area:

Areas where aircraft move, i.e. aprons, stands, taxiways and taxiways with associated runway surfaces. The area of the apron that is outside the ERA area or outside the double yellow line does not belong to the movement area.

SAFETY FIRST - Your Priority!
