

Safety Alert

Malmö Airport 2025-03-20
Safety Alert 01

Safety Awareness Still Important

With fewer flight movements than usual, we want to remind you that safety awareness remains as important now as ever.

Safety is our shared responsibility, regardless of the connection to individual operations. We all work at the airport and must ensure, together, that it remains a safe workplace for everyone.

So, continue doing what you do always do, and do so well:

- Work **proactively** and be aware of the safety risks that exist.
- Follow the **rules** and **procedures** in place.
- Use **correct phraseology** in the maneuvering area.
- Stay **vigilant**.
- Do not take **shortcuts**.
- Continue **reporting** potential safety risks and safety related incidents so that we can address them, learn from them, and develop from what has occurred.

SAFETY FIRST

- Always make Safety your top priority!
